

SAVE THE DATE!

2014-15 College and University Flu Vaccination Challenge Best Practices Webinar

Thanks for teaming up with MDCH to challenge students to get vaccinated against the flu this fall!

Join MDCH Division of Immunization staff and fellow colleges and universities across the state on this best practices webinar to learn about what's worked on certain campuses for getting college students vaccinated against the flu.

If your school has new or innovative strategies you would like to share (past campaign successes and challenges, upcoming initiatives, methods to measure vaccination coverage among students, or other ideas) please contact Stefanie at DeVitaS1@michigan.gov or Courtney at LondoC1@michigan.gov to be placed on the agenda for a 5 minute presentation.

You will also hear a campaign update from MDCH staff, including the timeline for moving forward, next steps, and other exciting developments.

How does your
university stack
up?

Join in a friendly
competition this
fall

Educate students
about the flu

Increase
vaccination rates
among your
student body

Keep students
healthy and in
class

WEBINAR DETAILS:

Tuesday, July 22, 2014
12:00 to 1:00 p.m. (EST)
